On the Go,
in the Know,
and in Control

Nexia™ ...Taking Your Home's Comfort and Efficiency to a Whole New Level.

Manage your home from anywhere.

Nexia helps you connect to your home from an all-in-one app. If you're looking for smart home ideas or for a single app that controls over 400 smart home products including security cameras, water leak sensors, thermostats, remote control lighting and much more, Nexia has the solution for you!

Compatible and controlled by Nexia.

Nexia is built on an open architecture platform, which means it works with products from a number of different manufacturers. We are selective and work with brands that are innovative and reputable. So, with Nexia, not only can you choose the products you prefer, you can have the confidence those products are well built and supported by the most trusted and innovative brands in the home.

For a list of compatible devices, go to <http://www.nexiahome.com/compatible-products>

*Nexia™ Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia smart home system requires a monthly subscription for remote access via most web-enabled smartphones and computers.

Getting Started With Nexia™

The heart of a Nexia smart home system is the Nexia Bridge. The 850 and 824 Controls are built with the Nexia Bridge inside. Stand-alone versions of the Nexia Bridge are also available (see below). All of these products contain the Z-Wave® technology that will speak to and connect with other Z-Wave products you can use to manage, monitor and automate your home.

With Nexia™, you can do all this...and more.

Open, close and monitor your garage door even when you're not home

Schedule front porch light to turn on and off automatically

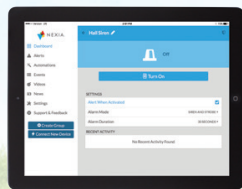

Automatically turn on the porch light and receive an alert when your doorbell is rung

Remotely view and automatically record what is happening inside your home

Automatically turn on the lights, trigger the siren, and receive an alert when breaking glass is detected

Turn outdoor and indoor lights on and off when on vacation to give the appearance that someone is home

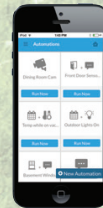

Receive alerts when the siren alarm is triggered by motion or an event

Remotely turn lights on, off or dim

Turn on the air conditioning when motion is detected and suspend operation if a window is left open

NEXIA™

From Nexia:
Smoke has been detected in the Hallway

Trigger the siren and receive a text or e-mail alert when smoke or carbon monoxide is detected in your home

Raise or lower the temperature in your home remotely

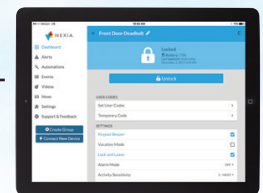

Turn on lights when motion is detected

Remotely view and record what is happening outside your home

Receive an alert when a water leak is detected in a bathroom, laundry room hot water closet or near the dishwasher

Recall up to 15 pre-programmed automations and modes with the touch of a button. For instance, one tap will shut off the lights, lock the doors, and adjust the temperature as you leave the house

Lock or unlock doors remotely and receive a text message when a door is unlocked

Get a handle on your energy consumption with scheduling, and use less energy when everyone's away

Control small appliances such as ensuring the coffee pot is turned on at 6am and turned off by 9am on selected days of the week

Nexia™ is compatible with over 400 certified Z-Wave® devices
Z-Wave® is a registered trademark of Sigma Designs and/or its subsidiaries

Our dealers put you in control.

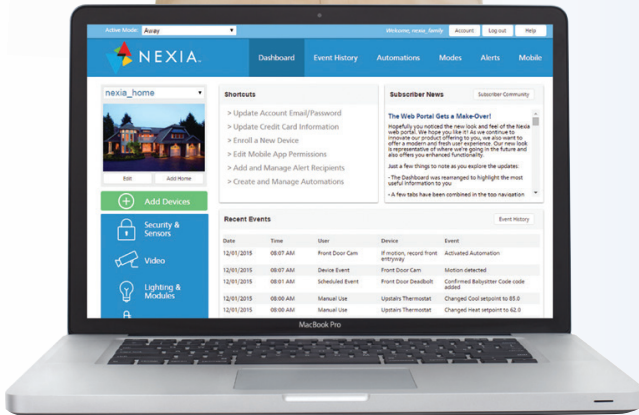

Your independent heating and air conditioning dealer who offers Nexia™ products is a highly trained professional who will work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.

What you need to get started with Nexia.

- Active broadband internet connection
- For Nexia Bridge built into the 850 and 824 Control, sufficient WiFi signal strength at the Control mounting location
- A valid e-mail address
- For mobile accessibility, an iOS, Android or Windows Phone smartphone or tablet with an internet data plan and an SMS (text messaging) plan

What sets Nexia apart?

- No fixed term contracts or cancellation fees
- Compatible with over 400 other connected devices
- For the 950, 850 and 824 Controls, Nexia™ Diagnostics can detect issues with your heating and cooling system before they become major repairs
- Open architecture supporting connected devices from many manufacturers
- U.S.-based call center for live customer support
- Your privacy is assured; Nexia will never sell your data
- Subscriber welcome program for onboarding
- Best-In-Class Setup and Installation Wizards for consumers

Nexia™ is a brand of Ingersoll Rand. Ingersoll Rand (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; and increase industrial productivity and efficiency. We are a \$13 billion global business committed to a world of sustainable progress and enduring results.
